

## Smartcards

Fieldware have supplied key consulting resources to to major smartcard projects since 2001. These projects include transit smartcard rollouts and identity cards with smartcard technology.

Our consultants have been involved with a number of Australian international smartcard projects for banking, public transport and staff identification. We have a broad knowledge of the many issues in the implementation of smartcard systems in the areas of:

- Card Management
- Public Key Infrastructure
- Smartcard Hardware
- Transaction Protocols
